DETAILED ACTION

This action is in response to the filing on October 22, 2010 of an IDS after allowance but before payment of the issue fee. The application currently contains 25 claims with claims 1, 25 and 26 being independent.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on October 22, 2010 was filed after the mailing date of the allowance on July 26, 2010 The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has been considered by the examiner.

Allowable Subject Matter

Claims 1-9 and 11-26 are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward P. Smith of Harness, Dickey & Pierce, P.L.C on November 30, 2010.

The application has been amended as follows:

In Claim 1, line 14, at the end of the claim, - -, the relatively increased amount of detail includes a textual description of the dynamic travel information - - has been added.

In Claim 25, line 15, at the end of the claim, - -, the relatively increased amount of detail includes a textual description of the dynamic travel information- - has been added.

In Claim 26, line 16, at the end of the claim, - -, the relatively increased amount of detail includes a textual description of the dynamic travel information - - has been added.

The following is an examiner's statement of reasons for allowance:

The cited prior art neither teaches nor reasonably suggests that in a navigation device that calculates and displays a representation of the actual road being traveled based on a route planned between two user-defined places. Where the device also displays a schematic view including a graphical depiction of dynamic travel information relating to the remainder of the entire route relative to the current location, that the graphical depictions are selectable graphical icons or selectable options that when touched, causes the device display to display relatively increased detail of the dynamic travel information selected. Further that the relatively increased amount of detail includes a textual description of the dynamic travel information.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LIN B. OLSEN whose telephone number is (571)272-9754. The examiner can normally be reached on Mon - Fri, 8:30 -5.

Application/Control Number: 10/598,900 Page 4

Art Unit: 3661

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas G. Black can be reached on 571-272-6956. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
